Applying for a Driving Licence?

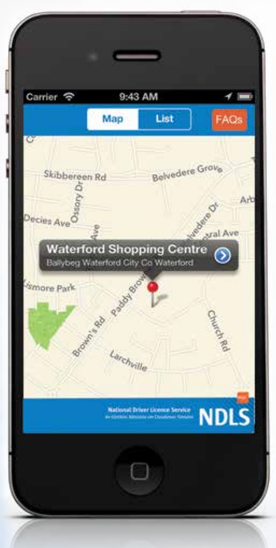
THE PROCESS HAS CHANGED

From Tuesday 29 October 2013 you need to apply for a driving licence or learner permit in person at any of the new National Driver Licence Service (NDLS) centres nationwide.

You will need to bring with you a completed application form and some additional documentation to validate your identity. For a full list of requirements visit NDLS.ie

Your photograph and signature will be captured digitally at the centre. This face-to-face validation ensures that the only person using your licence is you; helping to keep unlicensed, illegal drivers off our roads.

Generally you will receive your licence by post within 8 working days.



Find your nearest centre using our free app

Available on the App Store
